

Admission

Residency

Edmond Public School District is established for the purpose of serving the educational interests of resident students. State Law provides that a child's residence for school purposes is the school district in which the (1) parent, (2) legal guardian, or (3) person having legal custody of the child holds legal residence. "Legal residence" is defined as the student's place of abode, provided that it is a place where important family activities (such as sleeping, eating, working, relaxing, and playing) take place during a significant part of each day. Mere presence alone is not sufficient to establish residency.

For the purposes of enrollment, a person having "legal custody" is legally responsible for the care of the child pursuant to a COURT ORDER or agency responsible for making custody determinations and/or placements.

- Custody affidavit forms, notarized affidavits obtained from the custodial parent giving care and custody to another individual, or power of attorney documents will not be accepted.
- If a divorce has been granted, the decree will state which parent has legal custody. If the decree awards joint custody and each parent contributes a "substantial degree" to the child's support while they have custody, the residence in which the child resides on a regular basis determines the legal residency of the child for school attendance.

The School District provides educational services for homeless children to the extent required by Public Law 100-77, Title VII, Sub Section B.

Qualified students may establish residency under a Special Power of Attorney as required by the Compact on Educational Opportunity for Military Students.

Entrance Requirements

The following items are required to start the enrollment process:

1. Proof of Residency (2)

Parents / guardians will be asked to provide two proofs of residence:

- A current utility bill for gas, electric or water/sewer (telephone bills, television cable bills and cutoff notices will not be accepted)
- A current lease agreement, contract on a home, warranty deed statement or mortgage statement

Verification of residency must be provided each school year.

2. Proof of Immunization

The State of Oklahoma requires acceptable evidence of adequate immunization before a child may be enrolled in any school in Oklahoma. Minimum immunizations required by state law for students entering kindergarten for the first time are:

5 doses of DPT	2 doses of Hepatitis A	4 doses of Polio
3 doses of Hepatitis B	2 doses of MMR (measles, mumps, rubella)	1 dose of Varicella (chicken pox)

3. Legal Birth Certificate

Must be the certificate issued by the state or county where the child was born – not the hospital record. A child must be four (4) years old on or before September 1 to enter PreK, five (5) years old on or before September 1 to enter kindergarten, and six (6) years old on or before September 1 to enter first grade.

4. Parent/Guardian Photo ID

The biological, foster or adoptive parent may enroll the student. A driver's license or any other photo ID is acceptable. Guardians must have proper copies of court authorization. In cases of divorce, custody documentation is required, if applicable.

Attendance

A student is entitled to be counted present on only those days when in actual attendance or in scheduled school activities under the direction and supervision of a regular member of the faculty. The student must be in attendance at least two (2) of the first three hours or two (2) of the last three hours to be recorded present one-half ($\frac{1}{2}$) day, each for the morning and afternoon.

Promptness and regularity are essential characteristics for success. Students should make a habit of prompt and regular attendance and avoid all unnecessary absences. Students should be present except for the following reasons: personal illness, serious personal or family problems, pre-arranged family activities or religious observances, upon advance notice to the principal. In the event of an excused absence, make-up work should be handed in and accepted by the teacher.

The school attendance officer will notify parents of excessive, unexcused absences and report such absences to the Oklahoma County District Attorney for juvenile proceedings.

Students will not be excused from school to take private lessons of any kind except in those instances in which the school cannot provide appropriate facilities and/or instruction.

Absences:

- A. Recognizing that regular attendance in school is important to a student's academic performance, teaches the necessity of regular attendance in preparation for work and personal responsibility, Edmond Public Schools will continuously monitor the attendance of all students.
- B. When a student is absent from school, make-up work is due within a period of time equal to the days missed plus one extra day. For example, if a student is absent three days, assigned make-up work is due within four days after the student returns to school unless other arrangements have been made with the teacher.
- C. In order to approach each child's individual situation in the most appropriate manner, the following procedures are to be followed when a student's attendance record indicates a pattern of absences that may be detrimental to his/her educational progress.*
 1. On the seventh absence, the building principal will notify the parent/guardian in writing.
 - a. A copy of this attendance procedure will be attached to the notification.
 - b. The parent/guardian will be invited to convene a conference to discuss the absences.
 - c. Written documentation will be kept of all such conferences.
 2. On the fourteenth absence, the principal will again notify the parent/guardian in writing.
 - a. This attendance regulation/procedure will again be referenced in the notification.
 - b. The building administrator will attempt to initiate a conference with the parent/guardian to discuss the absences.
 - c. Written documentation will be kept of all such conferences. If the parent/guardian declines to meet, a written record of the attempt to initiate the conference will be maintained.
 3. On the occasion of the twentieth absence, the building administrator will notify the parent/guardian of the absences and of the committee review process that may be employed to determine placement of the student for the following school year.
 - a. A copy of Edmond Public School Board Policy # 4630 (Promotion and Retention) will be included with the letter.
 - b. The parent/guardian may submit written documentation regarding the student's attendance records. Documentation may include, but is not limited to, medical information regarding illnesses, evidence of observances of religious holidays, and/or a description of extenuating circumstances that have had a negative impact on the student's attendance at school.

4. Students who have accumulated twenty or more absences during the school year will be referred to the School Attendance Committee.
 - a. The School Attendance Committee may, before initiating a conference with the parent/guardian, consider any written documentation submitted by the parent/guardian concerning the excessive absences and determine, if no other concerns exist that would cause the student to be considered for retention, that no further action is necessary, the student will be promoted to the next grade level.
 - b. If the School Attendance Committee determines it necessary to initiate a conference with the parent/guardian of the student, the procedures set forth in the Edmond Schools Board Policy # 4630 (Promotion and Retention) will be followed in making recommendation for placement for the next school year.
 - c. If the parent/guardian declines to meet with the committee, a written record of the attempt to initiate the conference will be maintained.
 - d. In the meeting with the School Attendance Committee, the parent/guardian will be provided the opportunity to provide documentation and discuss any circumstances regarding the student's attendance record.
 - e. If the parent/guardian declines to attend the conference with the School Attendance Committee, the meeting will be held and if the decision is made to retain the student for the next school year the parent will be notified by certified mail.
 - f. The appeal process set forth in the Edmond Public Schools Board Policy #4630 will be made available as a part of the notification letter. If the parent/guardian does not agree with the committee's decision, the appeal process may be accessed.

Tardies:

Instruction is expected to begin when the class bell rings. Students who arrive after this time are considered tardy. Tardies may be excused for illness or personal injury, medical and dental appointments, court appearances, religious holidays, and family emergencies. If a tardy is to be excused, documentation must be submitted within three school days of when the tardy was recorded. Additional consequences may be assigned by the school as appropriate to deter student tardiness. The consequences may include, but are not limited to:

- Parent/guardian contact
- Conference with student and/or parent/guardian
- Detention

**Nothing in the above outlined Regulation/Procedure relieves the school district of its responsibility of enforcing the compulsory school attendance law as outlined in Title 10 of the Oklahoma Statutes 70-10106.*

If a child is absent without valid excuse for four (4) or more days or parts of days within a four week period or is absent without valid excuse for ten (10) or more days or parts of days within a semester, the attendance officer shall notify the parent, guardian or custodian of the child and immediately report such absences to the district attorney in the county wherein the school is located for juvenile proceedings pursuant to Title 10 of the Oklahoma Statutes. (70-10-106)

.....it shall be the duty of any parent, guardian or other person having charge of any child of compulsory attendance age to notify the child's teacher concerning the cause of any absences of such child. It shall be the duty of the principal or head teacher to notify the parent, guardian or responsible person of the absence of the child for any part of the school day, unless the parent, guardian or other responsible person notifies the principal or head teacher of such absence. (70-10-106)

Counseling Program

Elementary school years set the tone for developing the knowledge, attitudes, and skills necessary for children to become healthy, competent, and confident learners. Through a comprehensive developmental school counseling program, school counselors work as a team with students, school staff, parents, and the community to create a caring climate for learning. By providing education, prevention, early identification and interventions, school counselors help all children achieve academic success. School counselors utilize a variety of teaching opportunities as they work with students.

- Classroom Guidance Curriculum
- Crisis Intervention
- Consultation / Collaboration

School counselors' efforts focus on helping students with academic, personal/social, and career development so they achieve success in school and are prepared to lead fulfilling lives as responsible members of society.

Confidentiality is a high priority in the counseling profession. Although confidentiality is stressed in every lesson and situation, children do not always have a grasp of the concept, therefore, confidentiality among students cannot be guaranteed. School counselors recognize that their primary obligation for confidentiality is to students but balance that obligation with an understanding of parents' and guardians' legal and inherent rights to be the guiding voice in their children's lives, especially in value-laden issues.

The school counseling program is knowledgeable and supportive of the school's mission. It is the responsibility of the school counselor to inform appropriate officials in accordance with school policy of conditions that may be potentially disruptive or damaging to the school's mission, personnel, and property while honoring the confidentiality between the student and counselor.

The professional elementary school counselor holds a master's degree and required State certification in school counseling. Individuals wishing to learn more about the elementary guidance program or who have questions are encouraged to contact the school counselor at their children's school.

In accordance with state law (10 Oklahoma Statutes § 7101, *et seq.*), any District employee who has reasonable cause to know or to suspect that a student under the age of eighteen (18) has been subject to abuse or neglect or who has observed the child being subjected to circumstances of abuse or neglect shall immediately report or cause to be reported such situation to the Department of Human Services.

Dangerous Weapons

It is the policy of the Edmond Public Schools to absolutely prohibit the use, threat and/or possession of dangerous weapons and related instrumentalities (bullets, shells, gunpowder, etc.) on school premises or at school functions. School authorities shall immediately report the discovery of a firearm possessed by a minor or any other person not otherwise authorized by law to possess a firearm on school property pursuant to Oklahoma statutes.

1. Stat. tit 70, § 24-101.3. However, the Superintendent of Schools or his/her designee may modify the suspension requirement on a case-by-case basis for clearly extenuating circumstances.

Any student who aids, knowingly accompanies, assists or participates with another student who uses, displays or possesses a knife, weapon or device capable of causing personal injury or property damage in violation of this policy, shall also be subject to the same disciplinary action as the student who actually uses, displays, possesses or threatens to use such knife, weapon or device.

NOTE: Procedural Due Process Rights: For ALL out-of-school suspensions, the due process steps outlined for student suspensions in Policy #4401 Legal will govern administrative procedures to be followed in the enforcement of this policy.

Discipline

Continue Dress Code

Elementary teachers and administrators make every effort to use positive reinforcement, provide a pleasant environment, and maintain parental contact to ensure appropriate behavior of each child. These actions tend to minimize students' discipline problems.

The following forms of corrective action are encouraged:

- Private consultation with the student
- Removal of student from a situation until self-control is regained
- Removal of privileges
- Behavioral contracts or agreements with parents and children when parental cooperation is consistent and conducive to that of the classroom

Additional alternatives may be appropriate and effective for a particular child. Parents/guardians will be contacted if out-of-school suspension is being considered and procedures outlined in Policy #4401 will be followed.

Dress Code

The student dress code is based on the premise of recognizing fashion without sacrificing decency, safety, and appropriateness. It is the intent to restrict extremes and indecency, which will detract from the main purpose of the educational program. Dress and grooming which causes or is likely to cause disruption of the instructional program of the school is prohibited.

The following are general guidelines regarding proper dress. Inappropriate attire includes but is not limited to the following:

1. Headgear (examples: hats, caps, bandanas, sunglasses, stocking caps) is not to be worn in the building. Any headgear brought to school should be kept in the student's locker or cubby during regular school hours. Exceptions may be made by the principal for spirit days or special activities.

2. Halter tops, off-the shoulder tops, bare midriffs, tube tops, spaghetti straps, [muscle shirts, mesh shirts or fishnet (unless a t-shirt is underneath)], backless or partial backless garments, or outer garments with the appearance of underwear are not permitted to be worn by students.
3. Frayed, shredded, ripped or torn garments are not to be worn by students. Normal wear and tear is accepted unless it is to the extent that causes or is likely to cause disruption of the instructional program.
4. Apparel that is too tight or too loose is not to be worn by students. Clothing which is too revealing or does not completely cover under-garments may not be worn (examples: mini skirts, short shorts, low cut clothes or exposed cleavage).
5. Apparel that reveals offensive writing, suggestive slogans or logos which pertain to beer, liquor, drugs, or tobacco is not to be worn. Items which carry connotations of immorality, vulgarity, obscenity, nudity or promotion of violence and/or gang/cult activity (articles of clothing, belts, jewelry, or school materials) are not allowed.
6. Apparel identifying a student as "security" or "police" is not to be worn.
7. Bike or animal chains/collars/spikes are not to be worn.

Additional guidelines include the following:

1. Shoes must be worn. House shoes are not permitted.
2. Clothing normally worn when participating in a school sponsored extra-curricular or sports activity may be worn to school when approved by the Administration.
3. Exceptions to these guidelines may be made by the principal for spirit days or special activities.
4. Additional modifications or exceptions to the dress code may be enacted as deemed necessary by the administration. Such modifications will be based upon safety or related factors.
5. Administrative guidelines are to be developed for enforcement of the dress code.

Note: Elementary students are not allowed to wear extreme hair colors or styles which may be disruptive to the learning environment.

Drug and Alcohol-Free Schools Policy

It is the policy of the Edmond Public Schools that no student shall possess, use, transmit, share, provide, sell, conspire to sell or possess or be in the chain of sale or distribution or be under the influence of any prohibited or controlled substance including a narcotic drug, illicit drug, hallucinogenic drug, amphetamine, barbiturate, marijuana or any other controlled substances, alcoholic beverage or non-intoxicating beverage (defined by law, i.e. 3.2 beer). Counterfeit drugs (turkey drugs), drug paraphernalia and chemicals which provide a mood-altering effect are included as controlled substances. Illicit drugs include steroids and prescription and over-the-counter medications being used for an abusive purpose. This prohibition applies to competitions on school transportation, on school premises, at school functions, school-sponsored activities, performances, contests, athletic competitions, during lunch, or while under the supervision of school personnel. This policy is adopted in compliance with the Drug-Free Schools and Communities Act Amendments of 1989.

It is the responsibility of all school personnel to report suspected violations of this policy to an administrator when it appears to a teacher or administrator that a student may be under the influence of low-point beer, alcoholic beverages, or controlled dangerous substances (drugs). The teacher or administrator will promptly report the matter to the school principal or his/her designee. The report of the teacher or administrator will state the date, time and place of the incident. It will also describe the actions of the student or other circumstances from which the teacher or administrator concluded that the student appeared to be under the influence of low-point beer, alcoholic beverages, or controlled dangerous substances.

In order to assist with the detection of students who may have consumed or be under the influence of alcohol, school officials may employ the use of an appropriate screening device such as a breath alcohol testing instruments or breathalyzer.

The administrator will notify the parents, impose appropriate consequences according to the discipline policy and report the incident to the local authorities. School discipline will be imposed independent of any court action. A confidential drug/alcohol report, completed by the administrator, will be sent to the Superintendent or his/her designee.

Any student violating this policy and his/her parents will be encouraged to obtain drug/alcohol education, counseling and/or chemical dependency treatment as appropriate and at the parents' expense.

Copies of this Policy shall be provided to all students and their parents at the beginning of each school year.

Elementary Academic Support

Reading Sufficiency

The Oklahoma Reading Sufficiency Act, passed by the Oklahoma State legislature in 1997 and amended in 2005, mandates that each student attain the necessary reading skills by completion of third grade that will enable continued development in reading and success throughout school and life.

- The Act targets students in kindergarten through third grade.
- It requires that each K-3 student be assessed using multiple assessments. Students found not to be reading at the appropriate level in grades K-3 are placed on reading plans.
- Progress is monitored throughout the year and diagnostic assessment, if needed, is administered. Year-end reading skills are measured to determine reading success.
- Curriculum focuses on the five components of reading instruction: phonemic awareness, phonics, fluency, vocabulary, and comprehension.

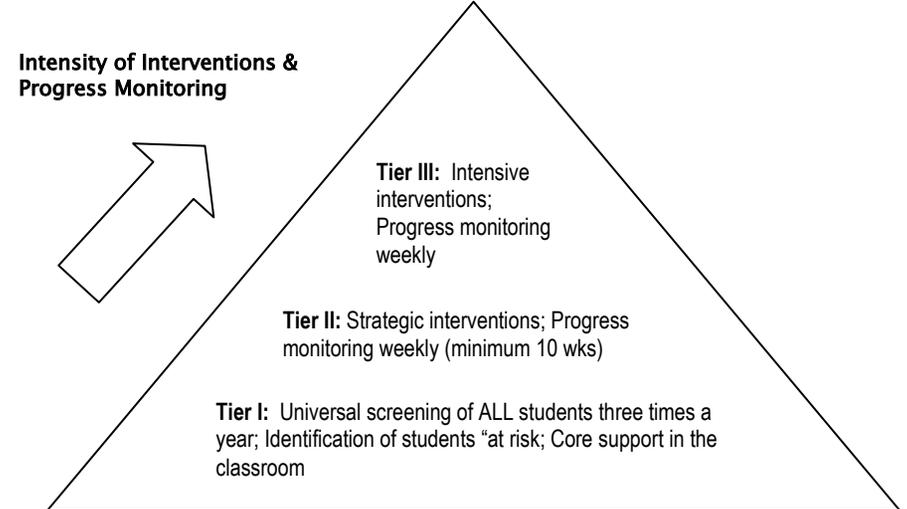

Title I

The Improving Academic Achievement of the Disadvantaged Act of 1994 reauthorized the Elementary and Secondary Act of 1965. The purpose of this Act is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and state academic assessments.

- Title I is a federally funded program. Schools become eligible for Title I funds based on the percentage of students who qualify for free and reduced school meals. Schools are designated as Target Assisted Title I or School-wide Title I.
- Federal funds are made available in Target Assisted Title I schools to provide services to a select (targeted) group of students identified as most “at risk” in meeting State content and student performance standards.
- School-wide Title I schools have greater latitude in determining how to organize their programs. They are not required to identify specific children as eligible for services. School-wide programs serve all children in the school.

Tiered Intervention (RtI)

Response to Intervention (RtI) is a multi-level, system-wide framework for prevention and early intervention that involves determining whether students are learning, progressing and/or excelling when provided with high quality instruction and interventions in academics and/or behavior. The Edmond RtI model involves three levels of support based on student needs. These levels are referred to as tiers.

Tier I includes:

- Effective, scientifically-based academic instruction and curriculum linked to State standards
- Screening ALL students three times a year (Fall, Winter, Spring) in the areas of reading and math to identify the effectiveness of programs and the success of students
- Identification of students who may be “at-risk” for future academic problems
- Differentiated instruction for ALL students in the classroom

Tier II includes:

- Supplemental, research-based intensive small group interventions, delivered in a timely and systematic manner
- Weekly progress monitoring to evaluate the effectiveness of classroom interventions
- Intervention changes based on progress monitoring data

Tier III includes:

- Intensive, individualized or small group interventions that are more explicit and specially designed to meet individual needs
- Systematic progress monitoring data collected weekly
- Interventions beyond the classroom delivered by an appropriate specialist as necessary

Organizations operating concessions at school functions and fund raising activities should include some healthy food choices in their offerings.

Harassment/Intimidation/Bullying

It is the policy of this school district that threatening behavior, harassment, intimidation, and bullying of students by other students, personnel, or the public will not be tolerated. Students are expected to be civil, polite, and fully engaged in the learning process. Students who act inappropriately are not fully engaged in the learning process. This policy is in effect while students are on school grounds, in school vehicles, at designated bus stops, at school-sponsored activities, or at school-sanctioned events, and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district. Threatening behavior, harassment, intimidation, and bullying of students by electronic communication is prohibited whether or not such communication originated at school or with school equipment, if the communication is specifically directed at students or school personnel and concerns harassment, intimidation, or bullying at school.

Definitions

1. "Harassment, intimidation, and bullying" (as used in the School Bullying Prevention Act) means any gesture, written or verbal expression, electronic communication, or physical act that a reasonable person should know will harm another student, damage another student's property, place another student in reasonable fear of harm to the student's person or damage to the student's property, or insult or demean any student or group of students in such a way as to disrupt or interfere with the school's educational mission or the education of any student. Harassment, intimidation, and bullying include, but are not limited to, gestures, written, verbal, or physical acts, or electronic communications.
2. "Electronic communication" means the communication of any written, verbal, or pictorial information by means of an electronic device, including, but not limited to, a telephone, a cellular telephone or other wireless communication device, or a computer.

1. The matter should immediately be reported to the building principal. If the bullying involved an electronic communication, a printed copy of the communication as well as any identifying information such as email address or web address shall be provided to the building principal. As much detailed information as possible, should be provided to the building principal in written form to allow for a thorough investigation of the matter.
2. Upon receipt of a written report, the building principal shall contact the superintendent or designee and begin an investigation to determine the severity of the incident and the potential for future violence. The building principal shall provide for:
 - a. Prompt investigation of allegations of harassment;
 - b. The expeditious correction of the conditions causing such harassment;
 - c. Establishment of adequate measures to provide confidentiality in the complaint process;
 - d. Initiation of appropriate corrective actions;
 - e. Identification and enactment of methods to prevent reoccurrence of the harassment; and

4. If it is determined that the school district's discipline code has been violated, the building principal shall follow district policies regarding the discipline of the student.
5. Upon completion of the investigation, the principal, superintendent, or superintendent's designee may recommend that available community mental health care options be provided to the student, if appropriate. This may include information about the types of support services available to the student bully, victim, and any other students affected by the prohibited behavior.

If such a recommendation is made, the administration shall request disclosure of any personnel provided the disclosure does not violate the provisions or requirements of the Family Educational Rights and Privacy Act of 1974, the Health Insurance Portability and Accountability Act of 1996, Section 2503 of Title 12 of the Oklahoma Statutes, Section 1376 of Title 59 of Oklahoma Statutes, or any other state or federal laws relating to the disclosure of confidential information.

In administering discipline, consideration will be given to alternative methods of punishment to insure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. The faculty may consider consultation with parents to determine the most effective disciplinary measure.

In considering alternatives of corrective actions, the faculty/administration of the school district will consider those listed below. However, the school is not limited to these alternative methods, nor does this list reflect an order or sequence of events to follow in disciplinary actions. The board of education will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

Other appropriate disciplinary action as required and as indicated by the circumstances which may include, but is not limited to, removal from eligibility to participate or attend extracurricular activities as well as removal from the privilege of attending or participating in the graduation ceremony, school dances, prom, prom activities, and/or class trips.

Harassment (Sexual)

The District is committed to providing equal employment and educational opportunities and, therefore, forbids discrimination against any employee, student, applicant for employment or any other person on the basis of gender. The District further forbids sexual harassment by any employee or student. This policy also applies to non-employee volunteers and contractors whose work is subject to the control of District personnel.

Specific Prohibitions:

A. Administrators and Supervisors:

1. It is sexual harassment for an administrator or supervisor to use his or her authority to solicit sexual favors or attention from subordinates or District's patrons when the individual's failure to submit will result in adverse treatment or when the individual's acquiescence will result in preferential treatment.
2. It is sexual harassment for an administrator or supervisor to subject any student to any unwelcome conduct of a sexual nature or to engage in a sexual relationship with a student.
3. Administrators and supervisors who either engage in sexual harassment or tolerate such conduct by other employees or students shall be subject to sanctions, as described below.

B. All Employees:

1. It is sexual harassment for a non-administrative and/or non-supervisory employee to subject any District employee or patron to any unwelcome conduct of a sexual nature.
2. It is sexual harassment for a non-administrative and/or non-supervisory employee to subject any student to any unwelcome conduct of a sexual nature or to engage in a sexual relationship with a student.
3. Employees who engage in such conduct shall be subject to sanctions, as described below.

C. Students:

1. It is sexual harassment for a student to subject any District employee, patron, or fellow student to any unwelcome conduct of a sexual nature.
2. Students who engage in such conduct shall be subject to sanctions, as described below.

General Prohibitions:

A. Unwelcome Conduct of a Sexual Nature:

1. Conduct of a sexual nature may include:
 - a. verbal or physical sexual advances, including subtle pressure for sexual activity, flirtation, advances, and/or propositions of a sexual nature;
 - b. touching, pinching, patting, or brushing against;
 - c. unwarranted displays of sexually suggestive or sexually explicit objects or picture, including greeting cards, articles, books, magazines, or cartoons;
 - d. sexual assault;
 - e. comments regarding physical or personality characteristics of a sexual nature; and
 - f. sexually-oriented "kidding", "teasing", double meanings and jokes.
2. Conduct of a sexual nature may constitute sexual harassment when the allegedly harassed employee has indicated, either orally or by his or her conduct that it is unwelcome.
3. If the person has initially welcomed such conduct by active participation, the person must give specific notice to the alleged harasser that such conduct is no longer welcome in order for any such subsequent conduct to be deemed unwelcome.

B. Sexual Harassment: For the purpose of this policy, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment if:

1. submission to the conduct is made either an explicit or implicit condition of employment or instruction;
2. submission to or rejection of the conduct is used as a basis for an instruction or employment decision affecting the harassed student or employee;
3. the conduct substantially interferes with a student's learning or an employee's work performance;

4. the conduct, either by intent or by effect, creates an intimidating, hostile, or offensive work or learning environment;
5. the conduct is directed toward a student, regardless of the basis by an adult employee or volunteer
6. submission to or rejection of the conduct is used as a basis for providing the District's services or participation in the District's programs.

C. Circumstances of sexual harassment: Sexual harassment can occur in a variety of circumstances, including, but not limited to, the following:

1. the individual who is sexually harassed, as well as the harasser, may be female or male and does not have to be of the opposite sex from the harasser;
2. the harasser can be the supervisor of the individual who is sexually harassed, an agent of the employer, a supervisor in another area, a co-worker, a subordinate, an instructor, or a non-employee.
3. the individual who is sexually harassed does not have to be the specific person to whom the harasser directs the conduct which constitutes sexual harassment but must be a person who was directly affected by the offensive conduct of the harasser; and
4. unlawful sexual harassment may occur without economic injury to or discharge of the individual who is sexually harassed.

Report, Investigation, and Sanctions:

A. Victims of sexual harassment are encouraged to come forward with such claims. Furthermore, they have a right to file a grievance and present witnesses and other evidence. This may be done through the grievance procedure outlined in the District's Civil Rights Policy and Grievance Procedures. If the District's Civil Rights Compliance Officer is the alleged harasser, the complaint should be made directly to the Superintendent.

1. Employees who feel that administrators or supervisors are conditioning promotions, increases in wages, continuation of employment, or other terms or conditions of employment upon sexual favors, are encouraged to report these conditions to the appropriate administrator. If the employee's direct administrator or supervisor is the alleged offending person, the report shall be made to the next higher level of administration or supervision.
2. Employees, patrons, and students are also urged to report any unwelcome conduct of a sexual nature by supervisors, employees, or students if such conduct interferes with the individual's work performance or creates a hostile or offensive working or learning environment.
3. Confidentiality shall be maintained and no reprisals or retaliation shall be allowed to occur as a result of the good faith reporting of charges of sexual harassment.

B. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct and the context in which the alleged conduct occurred shall be investigated in the manner set forth in the District's Civil Rights Policy and Grievance Procedures. The District's Civil Rights Compliance Officer has the responsibility of investigating and resolving complaints of sexual harassment. In the event the Compliance Officer is the subject of the complaint, the Superintendent's designee shall investigate the matter.

C. If a violation is established, the District will take prompt action to address the violation and prevent it from reoccurring. Any employee found to have engaged in sexual harassment shall be subject to sanctions, including, but not limited to, warning, demotion, suspension, or termination subject to applicable procedures and due process requirements. Any student found to have engaged in sexual harassment shall be subject to disciplinary action according to District's policies.

Health & Physical Activity Report

Edmond Public Schools is committed to the overall wellness of all students. It is the goal of the district to instill in children the importance of daily physical activity and healthy lifestyles as a way to combat the national trend of obesity, diabetes, and heart disease.

Elementary students in grades K – 5 are provided sixty (60) minutes of physical education each week. In addition, students receive twenty (20) minutes of recess on a daily basis. Classroom teachers are also encouraged to integrate fitness breaks into their daily routine.

Physical education programs include a variety of activities based on State standards. Students participate in movement skills and learn concepts that develop physical fitness, personal and social skills, sportsmanship, safety, and lifetime health activities. These skills are introduced through games and exercises that are taught in a fun and motivating manner.

Families are encouraged to participate together in physical activity. The National Association for Sports and Physical Education (NASPE) recommends school-age children accumulate at least sixty (60) minutes and up to several hours of physical activity per day while avoiding prolonged periods of inactivity.

In order to monitor your child's physical progress, contact your health care professional or the physical education specialist at your child's school. Various websites are available for more information.

Homework

The purpose of homework is to expand learning outside the classroom in a way that engages students in meaningful, relevant experiences so that students develop responsibility, reinforce skills and extend learning.

There are three types of homework: 1) Practice, 2) Preparation, and 3) Extension. Practice assignments reinforce newly acquired skills and knowledge. Preparation assignments require the gathering or organizing of information before class activities. Extension assignments encourage individualized and creative learning by emphasizing student initiative and research. Extension assignments require students to apply previous learning. The emphasis of homework in Edmond Public Schools should be extension assignments. To that aim the following homework guidelines are recommended.

Guidelines for Homework Grades PK-5

All students PK-5 are expected to participate in “at home” recreational reading for a minimum of 20 minutes per day. At the lower grades students may be read to and with until reading skills have progressed to allow the student to read independently.

- For children in grades PK-2: Homework, in addition to “at home” reading, will be occasionally assigned and should approximate 5-10 minutes.
- For children in grades 3-5: Homework, in addition to “at home” reading, will be regularly assigned and should approximate 10-30 minutes.
- Unfinished class work may comprise a portion of the daily homework assignment. Completing unfinished class work or assignments due to absence(s) may result in a longer time commitment than the approximated times listed above. If a child consistently exceeds the approximate times, the parent should make contact with the child's teacher.
- All work is expected to be completed and turned in on time, unless a student has been absent.
- All completed homework will be given recognition, praise, or corrective feedback.
- Make-up assignments are due within a reasonable time as determined by the teacher and principals.

Information Technology Standards of Conduct

Use of the Edmond Public Schools wide area network, technology equipment and related services such as e-mail and Internet access, are provided for instructional purposes and job-related responsibilities. The Standards of Conduct will highlight:

- ◆ Responsibilities and Expectations
- ◆ Prohibited activities
- ◆ Consequences and Penalties for violations

The Standards of Conduct is developed from **EPS Policy 5720** and Regulations. Any attempt to violate the provisions of the Policy or Regulations may result in disciplinary action up to and including loss of network privileges, confiscation of computer equipment, suspension, criminal prosecution, and/or termination of employment.

Responsibilities and Expectations

- Sharing any User ID or password is strictly and absolutely prohibited.
- All staff is expected to lock their workstation when away from it for even a moment.
- Users are solely responsible for all activity and actions taken under their User ID.
- Users should have no privacy expectation in the content of their files, information and communication on the District Network.
- Users are responsible for the contents of their Home directory. Users may store only school or work related materials in their Home directory.
- Users are expected to act responsibly and lawfully in their use of District technology resources.
- Users should understand that access to the Network is a privilege, which can be revoked.
- All students will be educated about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response.
- Teachers are expected to prepare lessons and lesson plans before having students use the Internet. Most importantly, it requires pre-researching the Internet sites that will be used as instructional resources.
- Teachers are responsible for instruction regarding proper use before any student is allowed on the network. Student use of the Internet should be related to class learning objectives.
- All staff - Teachers, Support, and Administrative - are responsible for monitoring student activity on the school network. The staff member assigned to that student or group of students is responsible for the monitoring and oversight of the network and Internet activity.
- If a User inadvertently accesses inappropriate material, or has knowledge of others accessing inappropriate material, the User should immediately inform an administrator.

Prohibited activities

Each violation will be evaluated independently, taking into consideration the circumstances, past history, and access level of the User.

Violations may include, but are not limited to:

- Sharing User accounts or passwords
- Allowing others to use your computer while it is logged in with your user ID in your absence
- Viewing unauthorized materials, images, or websites
- Attempting to gain unauthorized access or compromise Network services or data, in any way and by any means
- Group defamation or discrimination toward other people
- Using social networking or messaging sites in a manner that distracts from or disrupts district operations or any part of the educational process
- Cyber bullying
- Inappropriate language
- Participating in any unlawful activity
- Attaching personal hardware to the network
- Conducting personal business, solicitation, or advertising of any kind
- Installing or downloading unauthorized software on any computer
- Sending mass e-mails or spam
- Excessive Internet use
- Participating in gambling or lotteries
- Using the System for political purposes
- Any other actions that disrupt school/district operations

Consequences

Consequences will be determined based upon the type of violation, past history, and level of the User. Certain violations may lead to additional, more severe penalties and legal action, as applicable. If the District becomes aware that a user may have violated the law or Board Policy, an individual search of the user's files, Internet usage, or other electronic/digital media will be conducted. The investigation and its scope will be reasonable, calculated to disclose the existence and nature of the alleged violation.

Penalties for Violations may include, but are not limited to:

- Loss of Internet access and/or Network access, for a determined amount of time according to the offense.
- In addition to these penalties, student offenses will include notifying the student's parent/guardian of the incident.
- In addition to these penalties, EPS Staff may also receive: a verbal warning, a Letter of Counsel, a Letter of Reprimand, or administrative action.

The District believes that parents bear primary responsibility for communicating acceptable behavior and family values to their children regarding Internet usage. The District encourages parents to discuss with their children what material is and is not acceptable to access.

Dispensing Medication

Only medication that has been prescribed for a student by a physician will be administered at school. Medication must be in a prescription container with the pharmacy label attached and with directions for administration clearly stated. Non-prescription medication must be in the original container and accompanied by a physician's written request and instructions for administration at school. This includes aspirin, cough drops, nasal spray, etc. *Forms for physician's statements are available in the school office.* (70-1-116.2)

Self-Administered Medication

Pursuant to Oklahoma law, students may be allowed to carry and self-administer prescribed asthma, anaphylaxis, and diabetes medications according to the provisions in **EPS Policy #5530**. The district shall not incur any liability as a result of any injury arising from the self-administration of asthma or anaphylaxis medication by the student. (70-1-116.3)

Immunizations

State law requires the parent to present evidence of the following immunizations before students can enroll in school.

5 DPT	4 Polio
2MMR (Measles, Mumps, Rubella)	2 Hepatitis A
1 Varicella (Chicken Pox)	3 Hepatitis B

Vision & Hearing Screening

Students are routinely screened during elementary school years for vision and hearing. Additional vision/hearing screenings may be scheduled at the request of the parent.

Edmond Public Schools comply with and enforce state law in regard to the dispensing of medication (H.B. 1550), the re-admission of children after exclusion due to head lice, immunizations, and diabetes management plans. The cooperation of all parties is greatly appreciated.

The district employs 7 registered nurses that rotate among 26 school sites. If you have questions, you may contact the nurses at 726-4607.

Sick Students

Students with a temperature of 100 degrees or higher may not remain at school. Parents will be contacted to pick up their children. Students may return to school when they have been fever free for 24 hours without medication. **It is the responsibility of parents to provide the school with current emergency phone numbers.**

Vomiting / Diarrhea

Any student who is vomiting or has diarrhea must be excluded from school. Students may return to school when they have been symptom free for a 24 hour period without medication.

Head Lice (Pediculosis)

The Center for Disease Control (CDC) states Pediculosis is a nuisance, not a disease. Head Lice are small human parasitic insects that live and reproduce only on humans.

The adult head louse is 2-4 mm long, has six claw-like legs and a flat, wingless body. They vary in color depending on their human host. Their average life span is approximately 30 days. A female louse can lay 3-6 eggs (nits) per 24-hour period. Eggs are usually laid on the hair shaft close to the scalp. Nits are generally silvery-white in color but may appear dark gray or tan. Head lice cannot jump or fly; they can only crawl. Parents should contact their pharmacy if head lice are found for a recommendation of a treatment product. For more information on this subject go to <http://www.lice.com>.

Students with head lice will be excluded from school until treatment has been completed and they are screened by a school nurse and found to be free of head lice. (70-1210.194)

No complaint record shall be entered in any personnel file unless adverse employment action is taken against an employee. Complaint records shall be maintained on file for three years after complaint resolution.

No Child Left Behind Act **Parents Right to Know**

The *No Child Left Behind Act* is federal legislation that was signed by President Bush in January of 2002. A provision of this act gives parents/guardians of each student the right to request information regarding the professional qualifications of the student's classroom teacher(s), including:

- Whether the teacher has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether the teacher is teaching under emergency or other provisional status through which State qualification or licensing criteria have been waived.
- The baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, and the field of discipline of the certification or degree.
- Whether the child is provided services by paraprofessionals and, if so, their qualifications.

Parents/guardians who wish to request information regarding the professional qualifications of the student's classroom teacher(s), may deliver or mail a written request to:

Superintendent of Edmond Public Schools
1001 West Danforth
Edmond, Oklahoma 73003

A written response will be mailed to the parent/guardian within ten (10) working days.

Additionally, the school district is required to provide the parents/guardians of each child:

- Information on the level of achievement of the parent's/guardian's child on each of the State academic assessments. This information will be provided to the parent/guardian in written form after it has been received by the school district from the State Department of Education.
- Timely notice that the parent's/guardian's child has been assigned, or has been taught for four (4) or more consecutive weeks, by a teacher who is not highly qualified.

Notification of Asbestos **Hazard Emergency Response**

The Asbestos Hazard Emergency Response Act of 1986 (AHERA) requires the inspection of all buildings in the school district for asbestos. The district has complied with this act. A management plan documenting these inspections is on file for public review. Upon request, you may view the plan which is located at the superintendent's office and at each campus.

The EDMOND PUBLIC SCHOOLS annually notifies all parents, teachers and other employees by posting this notice. Additionally, information regarding any asbestos related activities, planned or in progress, will be disseminated by posting a notice, or using handout bulletins, flyers and/or using newspaper public notice statements.

The asbestos identified in our management plan will be checked regularly by a licensed asbestos company and by our staff to scrutinize any changes in the material which could cause a health hazard. We will continue to monitor the asbestos as defined by EPA guidelines. If changes occur, our asbestos coordinator will notify the appropriate people as described by law.

Notification of Rights under FERPA

Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the School receives a request for access. Parents or eligible students should submit to the School principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. These procedures for correction of education records shall be used only to address mistakes or violations of privacy and are not available to challenge grades or other academic determinations. Parents or eligible students may ask the School to amend a record that they believe is inaccurate or misleading. They should write the School principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent the FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. Edmond Public School District may disclose appropriately designated "directory information" without written consent, unless the parent/guardian has advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Edmond Public School District to include this type of information from certain school publications.

Examples include:

- The annual yearbook
- Graduation programs
- Sports activity sheets, such as for wrestling, showing weight and height of team members
- A playbill showing a student's role in a drama production
- Honor roll or other recognition lists
- Information to college recruiters

Edmond Public School District has designated the following information as directory information:

- Student's name
 - Address, Phone Number
 - Photographs
 - Grade level
 - Dates of attendance
 - The names of the student's parents
 - Participation in officially recognized activities and sports
 - Weight and height of members of athletic teams
 - The student's achievement awards or honors
 - The most recent educational agency or institution attended
5. Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks.
 6. In addition, federal laws require local educational agencies receiving assistance under the Elementary and Secondary Education Act of 1965 to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings - unless parents have advised the Edmond Public Schools that they do not want their student's information disclosed to military recruiters without their prior written consent.
 7. If parents do not want Edmond Public School District to disclose directory information from their child's education records without their prior written consent or disclose information to military recruiters, they must notify the District in writing within two weeks from the student's first day of class. A form is available at each school site or at the superintendent's office located at 1001 W. Danforth Road, Edmond, OK 73003. The completed form must be delivered to the child's school.
 8. Parents and students over the age of 18 have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are as follows:

*Family Policy Compliance Office

Visitor Access

The visitor control program is based upon a thorough understanding by Edmond Public Schools administration, principals and staff. An understanding assures the integration of procedures that are necessary to control access into and out of schools by visitors.

Authority and requirements on which the program is based are contained herein.

1. All visitors during school hours must sign in and out at the office using the Lobby Guard system.
2. District employees must wear identification badges at all times.
3. Support employees must check in with the office before performing work in the building. Exceptions to this would be maintenance personnel who may check in via radio with the Head Custodian who in turn would notify the office immediately.
4. Vendors must check in with the office before performing any work in the buildings.
5. Visitor badges must be easily identifiable by building staff as a visitor badge.
6. All badges or stickers must have the visitor's name, date and room number of where the visitor is going.
7. Visitor badges are good for one day only.
8. Log sheets will be reviewed daily to ensure all people have checked out.
9. Exceptions are limited to tours and special events when a large number of visitors are attending. In the event there are large groups of visitors in the building, direct routes need to be established to control the access to other parts of the building.
10. Regular visitors may be issued a permanent type visitor badge but must still check in at the office.

All Employees are to be aware of all visitors in buildings and are instructed to escort any visitor found in the building without a visitor badge to the office to check in and obtain a badge. Employees should not accept visitors into their classroom or work areas that have not checked in at the office.

The Administration at each site directs implementation of this procedure. The Safety Officer will conduct spot inspections to insure this procedure is being followed and a written report of findings will be provided to Administration (Principals and Supervisors) and the Superintendent.

Parents and/or an individual designated by the parent may observe in classroom(s) where their child is currently enrolled. The observation should be scheduled with a building administrator at least 24 hours in advance and coordinated with the teacher. Parents wishing to visit a classroom in which their child is not currently enrolled may, upon making an appointment with the site administrator, visit the classroom after school hours.
